

## CUSTOMISED HIGH-VOLTAGE PDUS AT THE BATTERY SHOW 2023

in-Tec Bensheim is pleased to be an exhibitor at this year's Battery Show Europe, which will take place in Stuttgart from 23 to 25 May 2023.

The fair gathers around 800 exhibitors from the battery and H/EV technology industry, providing the perfect opportunity for in-Tec Bensheim to present its solutions for the electrification of motor, special and municipal vehicles, airport traffic, mining or the marine sector.

Visit the in-Tec exhibition stand B26 in hall 10 to discuss the latest trends and developments with our specialists. Among other things, we will present our services for the **development and production of individual high-voltage PDUs** (Power Distribution Units). Our customised PDUs offer a wide range of customisation options to meet the individual needs and requirements of our customers' sustainable drive solutions. Our engineers are available to answer all questions regarding customised HV PDUs as well as the design and assembly of wiring in the high-voltage on-board network.

### Co-exhibitor AGRO AG presents EMC cable gland

Together with our co-exhibitor, AGRO AG, we will be presenting ourselves at stand B26 in hall 10. AGRO AG is a specialist for cable glands and will be presenting its EMC cable gland, the EVolution EMC. This is equipped with an innovative pluggable shield contact solution and offers an optimal solution for electric commercial vehicles to meet the high requirements for high switching frequencies by DC/DC converters and AC converters. AGRO's specialist staff will be happy to present this EMC cable gland.

### Arrange a trade fair date

Admission to the fair is free of charge. We will be happy to inform interested parties about our offer before the fair. You can also contact us at any time for further information.

If you would like to come to the fair in person, we can already arrange an appointment on site. Simply send us an e-mail at [info@in-tec.de](mailto:info@in-tec.de) or call us on +49 6251 70588-0.

PRESS RELEASE

About in-Tec Bensheim:

Since 1996, in-Tec Bensheim has been a partner for component assembly, cable assembly and the manufacture of high-quality components for companies in the medical technology, electrical engineering, mechanical engineering and automotive industries. In addition, true to the motto "We connect the e-Powertrain", in-Tec Bensheim manufactures individual high-voltage wiring systems according to VDA standards for the e-mobility industry.

In long-term cooperations, in-Tec Bensheim supports market-leading manufacturers from the mechanical and electromechanical industry with its know-how. In addition to a full-service offering as a system supplier, OEM manufacturer and contract manufacturer, in-Tec Bensheim also handles the purchasing and logistics of components and parts as well as stockpiling. For further information please visit [www.in-tec.de/en](http://www.in-tec.de/en) and [www.hochvoltkabel.de/en](http://www.hochvoltkabel.de/en).
